

LCA HEALTH REQUIREMENTS

Tennessee State Law and Georgia-Cumberland Conference Policy require that LCA have **proof of immunization** and a photo copy of a **birth certificate** for each student enrolled in school.

If you need to have immunizations updated or to obtain records, please call your pediatrician, family doctors, or the local health department for an appointment to have this taken care of **before your child may enter school on the first day**. The county health department closest to LCA is the Ooltewah Health Center, 5520 High Street, Ooltewah, (behind the James County Courthouse), which can access and verify immunization records and provide a green Tennessee Permanent Immunization Certification for you to return to the school. OHC's phone number is 423-238-4269.

All new students must have a physical. However, transfer students who can provide a copy of a previous physical will not be required to have another exam.
